Propositions for the Proposed Naval Vessels.

POLITICS IN GREAT BRITAIN.

Big Land Grant—Not Guilty—The Boat Race—Wreck and Rain—Lightning Flashes.

THE NEW VESSELS.

Some Curious Propositions from Cranky Inventors.

WASHINGTON, June 25.—A number of plans and specifications for the new naval vessels, provided for at the last session of Congress, have been received at the Navy Department. In the circular calling for plans and proposals, Secretary Whitney specified that they should be submitted by July 15. The circular called for plans for four vessels. The bureau of construction and the bureau of steam engineering of the Navy Department will submit plans for the latter for machinery and engines. It is not known that any other source will offer plans for the entire number. General plans for a single vessel will be submitted by naval officers, and it is expected that plans will be received from shipbuilders. Naval Constructors McIntyre, of Brooklyn, and others, will furnish plans for three vessels. The first is to cost about \$1,500,000, to be 350 feet by 45 feet and to run 15 knots per hour. Her armament will consist of twenty-seven guns, and she will carry about 400 men and officers. The second vessel will be 225 feet by 40 feet, carrying an armament of fourteen guns. The vessels are modeled after English cruisers. Enterprising but imaginative individuals have also been submitting propositions. One offers a plan for a vessel that will float on "top of water," beneath it, and in mid air. It will be wings, and it will make greater speed than any bird or anything man has invented. Others are submitting similar unpracticable schemes for parts of vessels. Secretary Whitney is not desirous of experimenting with new schemes. He rather favors the adoption of models of the best cruisers built by foreign powers, with such improvements as can be added by American shipbuilders.

The Harvard-Yale Race.

NEW LONDON, June 26.—The Yale crewmen, after the race, explained Yale's disastrous feat by saying that Yale was outwitted, and that Yale paid too much attention to the inside of the boat, while Harvard paid strict attention to the strokes and the outside of the boat. Certain it is, that the result is a great surprise to Yale, as she considered her crew sure winners. Many prominent Yale men have freely expressed the opinion that the result of this race will break up the Bob Cook and Louis Hall regime. It is now stated that two days ago Cook and Flanders had a serious misunderstanding, and Cook's language was as strong as that that broke Flanders up so badly that tears sprang to his eyes. The record of the Yale and Harvard series now stands: Harvard six, Yale four, while the Yale crew of 1884 stands the best time on record. The captain of the Yale crew declined to talk about the race, further than to say it was fairly won.

Dropping Them Off.

WASHINGTON, June 25.—The "Batie," House force of the Senate employees, consisting of three messengers, at salaries of \$1,440 each; two janitors at \$900, and several laborers at \$720, will be dropped from the pay rolls of the Senate at the end of the present month. These men are nearly all Republicans. At the same time one assistant doorkeeper of the Senate at \$1,200, two messengers at \$1,440 each, and one employee of the folding room will be dropped. Of these, two are Democrats, one is a Republican, and the politics of the other is unknown.

A Colorado Sensation.

DENVER, June 26.—The New-Silverton dispatch says, "Mrs. Grace V. Marsh, wife of a gambler, of this city, took morphine, yesterday, evidently with suicidal intent. This morning the attending physician pronounced her dead. The coroner impelled a jury, heard all the evidence, and was about to find a verdict, when her physician, who was present, said: 'Hold on, she is alive.' An examination was had and indications of life found. The coroner adjourned a further hearing until this afternoon when it was found that the woman was really dead, and the investigation concluded."

A Walking Skeleton.

Mr. E. W. Springer, of Mechanicsburg, writes: "I was afflicted with lung fever and abscesses on lungs, and reduced to a walking skeleton. Got a free trial bottle of Dr. King's New Discovery for Consumption, which did me much good that I bought a dollar bottle. After using three bottles I found myself once more a man, completely restored to health, with a hearty appetite and a gain in flesh of forty-eight pounds." Call at Z. C. M. I. Drug Store, and get a free trial bottle of this certain cure for all lung diseases. Large size, \$1.

CATERPILLARS, crickets, moths, bedbugs, cockroaches, ants and all noxious insects destroyed by Buhaich. Call at Z. C. M. I. Drug Department and get a box. Price 25 cents.

AT THE GALLOWS.

Murderers Confess on the Day of Their Execution.

PORT SMITH, Ark., June 25.—James Arcine, and Wm. Parchmeal, full blooded Cherokee Indians, were hung here at 2:15 o'clock this afternoon for the murder of Henry Fregel, an old Swede, thirteen years ago. At the trial both denied their guilt, and endeavored to saddle the crime on each other. They were represented by different counsel. Arcine denied having known of the killing. Parchmeal admitted being present, but said he was there under duress, and Arcine did the killing. Arcine made a statement yesterday denying the killing but implicating another man. To-day, when death drew near, he made a full confession. He said he was only a boy then, of 10 or 12 years of age, and was in a house at Talequah, Cherokee Nation, with other Cherokees, playing cards. Parchmeal came there and wanted him to go with him. They went through the prairie half a mile, then took the road. They saw a man coming. Parchmeal gave him a pistol and said, "That is the man; shoot him." He shot him six times, then both took rocks and mashed the man's head; then dragged his body out of the road. Parchmeal took the man's boots and 25 cents he had in his pocket. That man was Fregel. He did not know why Parchmeal wanted Fregel killed, and being only a boy at the time did not know it was wrong. Parchmeal admitted his guilt in a few words through an interpreter and said he was ready to die. Both men died without a struggle, and swelled the number who have been executed here during the last eleven years for crimes committed in the Indian Territory to sixty-six.

The Postmaster General, Friday, fixed the rates to be paid for the transmission of government telegrams during the next fiscal year. The new rates will be substantially the same as those now in force.

The Captain's Story.

LEMA, June 26, (via Galveston).—El Comercio, to-day, published a letter from Capt. Cortes, of the ill-fated *Italia*. He accounts for the wreck by the current, which set them in towards the land, and says that if the officer on watch, who is supposed to have committed suicide, had lived, more light could have been thrown on the cause of the disaster. Some of those saved were forty-nine hours in open boats, and were eventually rescued by fishermen. One boat was sucked down by the sinking ship and all its occupants were drowned.

Two in a Month.

MACON, Ga., June 25.—Last night, near Gibson, in Glascock County, Warren Wilcher, a murderer and notorious outlaw, went to his wife's house, and shot her in the mouth, inflicting a fatal wound. Wilcher broke jail a month ago, and this makes the second person he has shot since that time. Citizens are searching the woods for him.

Russia and the New Ministry.

St. Petersburg, June 25.—The Journal De St. Petersburg, in an editorial, expresses respect and sympathy for Mr. Gladstone. Referring to the new British Cabinet, the Journal says: "The Conservatives have the good sense to consider the necessity of the situation. The Marquis of Salisbury succeeds to the position already taken by Mr. Gladstone. The path to follow is broadly marked by the natural movement of history. The sense of responsibility and knowledge of Europe possessed by the Marquis of Salisbury will mould his acts according to the prevailing needs of the time with respect to her own interests, and Russia, in view of her conciliatory policy, regards with calmness the accession of the new ministry."

LONDON, June 25.—The Post says it is authorized to deny the report that Lord Salisbury telegraphed Lord Wolsey that he was in full sympathy with the latter's views regarding the withdrawal from Egypt, but that the government is unable to continue the expedition.

Mexican Matters.

CITY OF MEXICO (via Galveston), June 26.—A committee composed of the directors of the National bank waited upon the government yesterday, in reference to the application of the new law as far as that institution was concerned. The committee was informed that the provisions of the recent decree were applicable to national banks. Representatives, including attorneys of the Mexican Central and Mexican National railroads met to consider the effect of the new decree on these roads, and what action was proper in the premises, but no decisive action was taken.

The government has sold the four million dollars worth of nickel coin stored at the place since what was known as the "Nickel Riot," at a nominal value, to the London bank, acting as agent. The amount paid was \$300,000. The nickel is already on its way to England. It is still believed that government has in reserve some financial scheme that has not been printed.

Not Guilty.

NASHVILLE, Tenn., June 26.—The jury in the Johnson-Henry murder case has not been able to agree up to 10 o'clock last night. The case has been in progress two weeks and has attracted widespread attention. Senator Voorhees, of Indiana, was the leading counsel for the defense. Captain E. T. Johnson, formerly of Indiana, was arraigned for killing Major Edwin Henry, in Green County, Tennessee, on September 23d, 1884. Henry seduced Johnson's wife more than a year before, and Mrs. Johnson committed suicide in Indiana.

At 8:15 this morning the jury returned a verdict of not guilty. The announcement of the verdict caused a tremendous demonstration of applause by a large crowd in the court room.

VARIAN RAKED OVER THE COALS.

An Ogden correspondent sends us word under date of yesterday: "Mr. Varian, Mr. Dickson's satellite, with the light borrowed from that luminary, tried to dazzle court and jury to-day, and was rather sharply handled by Judge Powers in return. The case was one of larceny, and Mr. Varian took a gold coin from his pocket for the double purpose of showing that he had such a coin, and to emphasize to the jury the manner of money which had been stolen. He was interrupted by Mr. Kimball, for the other side, who said the indictment did not charge that gold had been taken. Mr. Varian reported, and the Judge rather sharply told him to confine his remarks to the jury. In a short time there was another colloquy between the lawyers, and the judge quite loudly told Mr. Varian to address the jury and not the attorney. This had to be emphatically repeated, and the countenance which the satellite bent upon the judge boded no good to the Democratic empire if ever a chance should present itself for retaliation."

The Sears Arrest.

There was a good deal of gossip in the city, yesterday, over the reported arrest of Mr. S. W. Sears, in Chicago. According to all accounts, the arrest was made by the city marshal of Chicago, acting on the papers from the Commissioner here. Secretary Thomas was asked by a Herald reporter whether any reputation had been made by the Governor, and he replied, "No." It was probable that the offense being under the United States law (unlawful cohabitation), the papers from the Commissioner's court or a copy of the indictment had been forwarded. At Z. C. M. I. nothing had been heard, although the account received was thought to be true. Mr. Sears' bonds are said to have been placed at \$3,000, and he of course found no difficulty in obtaining sureties, who would answer for his appearance at the September term.

The Explosion of a Boiler in a Distillery.

LOUISVILLE, June 25.—A special to the Courier-Journal says: The boiler in the distillery of Mattingly & Moore, of Beardstown, exploded this morning at 11 o'clock. Three work hands were killed instantly, and another so badly burned and bruised that it is thought he will die. The killed are Charles McAtee, Charles Spalding, Mason Bard, and the wounded man is named Benis Allen. All were colored. The scene in the distillery was horrible. Mattingly & Moore's loss is great, as the building is wrecked and the machinery ruined, but the amount of damage has not been estimated.
